Dear Potential Sponsor,

Welcome to HackIllinois 2019! HackIllinois is the nation's premier Open Source hackathon located at the University of Illinois at Urbana-Champaign. Last year, our attendees collaborated with Open Source mentors to contribute to impactful projects such as [Rust](#), [npm](#), [Conda](#), [Apache Mesos](#), and [many more](#).

Over the weekend of February 22-24, 2019, HackIllinois will create an environment conducive to education, collaboration, and mentorship within the Open Source community. Our event is filled with various opportunities for mentors and students to work together to gain awareness and contribute to Free and Open Source Software and Hardware.

As a sponsor, you will be able to:

- ✦ Send engineers to work directly with students on Open Source project(s)
- ✦ Access participant information and résumés
- ✦ Showcase your brand and develop innovative projects
- ✦ Contribute and bring awareness to the Open Source Community

The following page contains more details on how you can become a part of HackIllinois 2019. **To get involved or for any questions, please reach out to us at [sponsor@hackillinois.org](mailto:sponsor@hackillinois.org).**

We look forward to creating an amazing experience with your support.

Thank you,  
The HackIllinois Team

---

"HackIllinois is the place where creative, passionate individuals come together to build projects that go beyond a college campus or a 36-hour hackathon; they come to lay down the groundwork for innovative technologies and pave the path to empower the people around them."
